This offers you Free and for the first time a simple hair-removing test. A new method that removes hair as science recommends, and brings fresh and lovely beauty of skin. Without such beauty, hair removal is merely a useless gesture. The test shows why.

Though you may not realize it, you defeat your own desire for loveliness by removing hair in any way that leaves the hair ends to prick and show. Your underarm skin should not feel like a man's face. The skin surfaces rub. And shaving enlarges the pores, darkens the skin and makes it coarse. There is a far better way. You'll regard it as a happy discovery. It ends hair at the roots.

Don't Cut—Dissolve Unwanted Hair

Just do this: Coat the hair thickly with the harmless hair solvent, Neet. Let it remain a few moments. Then just dash water over it to moisten thoroughly. Rinsing then takes away both hair remover and hair. Relief is complete. Astonishing, thorough. Test the skin surface with your hand. Smooth as satin.

Because Neet acts on all sides of each hair at once, it leaves no harsh ends to prick. It simply dissolves the hair. Entirely unlike cutting. Soft, supple, and entirely natural, the skin surfaces, after Neet has been used, blend perfectly in texture and tone with the surrounding areas. Arms, under-arms and legs become surprisingly appealing. Amazingly perfect to look upon. To hundreds of thousands, the classic loveliness of contour achieved this easy way has even brought freedom from consciousness of annoying minor deficiencies in figure development. Proper removal of hair brings extraordinary charm as a trial proves. So completely does this hair removing method meet every requirement for hair-free beauty, that it is widely used abroad as well as by millions in this country. Send now and see just why.

Achieve Perfection of Natural Charm

End hair this new way just once, and you will never again resort to the razor. You cannot fight hair successfully that way. Just feeling a shaved surface proves the failure of that method. It is absolute freedom from hair, complete riddance of any slightest clouding factor, that gives you the delicious fairness of body that means so much. Hair, or even suggestion of clumsy attempts to remove hair are equally distasteful. Arms, legs and underarms simply must be faultlessly free, or the stigma of carelessness and unattractiveness follows. Remove hair with Neet.
